Phone: 774-454-8248

Experience

10/2018 - Present

Web Software Developer

Northrop Grumman (Walpole, MA)

2Is Solutions Team (March 2022 - Present)

- Developing the front-end of multiple SaaS products for mobile and web using HTML5, CSS3, JavaScript, jQuery, React, and React Native
- Designing low through high fidelity mockups and interactive prototypes for web and mobile applications based on customer use cases and requirements using Adobe XD
- Presenting interactive prototypes to internal and external stakeholders to receive design feedback
- Interfacing with QA team to resolve product defects in the most effective way
- Hosting and participating in peer reviews of code and high-level designs with colleagues
- Completing miscellaneous graphic design tasks and requests for web and print

Previously: 2Is Inc. (October 2018 - March 2022)

Performed all tasks included above; additionally:

- Redesigned and rebuilt the company's website (www.2is-inc.com); maintained company website and updating content when requested
- Refactored the company's internal CSS libraries to simplify structure and prevent code duplication

01/2017 - 12/2017

UI/UX Researcher, Designer, & Developer (*Honors Thesis Project*)

Bridgewater State University (Bridgewater, MA)

- Conducted research in the areas of UI/UX/HCI
- Designed paper prototypes and high-fidelity wireframes
- Developed the Bridgewater State University main website
- Recruited research participants on campus and conducted user testing
- Presented user testing results and new website to university's web development team

09/2017 - 12/2017

Teaching Assistant for Computer Science 1

Bridgewater State University (Bridgewater, MA)

- Taught review classes 3x a week and held 1-on-1 meetings to improve students' understanding of introductory programming concepts
- Created exercises and review materials for students
